Route Target C -- from Hu Gia Pass (UTM coordinates WE8254) to Muong Nong (UTM coordinates XI6009).

A military camp, situated approximately 5.5 km south of Don Bai Binh on Route 12 at the North Vietnam-Laothian border at UTM coordinates ML815534, contains 5 barracks, 3 probable administration buildings, and approximately 15 support/storage buildings. A large probable barracks building was observed under construction with extensive material (possibly construction) in open storage.

Numerous trenches and probable AM positions were observed throughout the camp area.
